# Teachscape Observation Management

The screenshot displays the Teachscape Observation Management interface. At the top, a navigation bar includes links for home, focus, reflect, learn, and advance, along with a My Videos link. Below this, the user's name, Cesare Granato, and email address, cgranato@ahs.org, are shown. The current review cycle is set to 'Teachscape Evaluation Process (2013-2014)'. The lead evaluator is Geraldine Howe. A table lists various observation types and their percentages, each with a 'Duplicate' button. The table includes: Unannounced Observation (15%), Video Observation (20%), Mid-Year Review, Announced Observation (25%), Student Learning Objectives (25%), End-of-Year Review, and Student Growth Data (15%). All evaluations are conducted by Geraldine Howe. A '+ Add Another Observation' button is located at the bottom of the table.

| Observation Type            | Percentage | Evaluator      | Action    |
|-----------------------------|------------|----------------|-----------|
| Unannounced Observation     | 15%        | Geraldine Howe | Duplicate |
| Video Observation           | 20%        | Geraldine Howe | Duplicate |
| Mid-Year Review             |            | Geraldine Howe |           |
| Announced Observation       | 25%        | Geraldine Howe | Duplicate |
| Student Learning Objectives | 25%        | Geraldine Howe | Duplicate |

# Teachscape Professional Learning (LEARN)

The screenshot displays the Teachscape Professional Learning (LEARN) website. At the top, the Teachscape learn logo is visible, along with navigation links for Overview, My Learning, Courses and Learning Resources, and My Communities. Below this is a 'Browse Course Catalog' section. On the left, a sidebar contains links for Search, Browse Course Catalog, Learning Resources, and Course Offering Requests. The main content area features a search bar and a course titled 'English Language Learners: Listening and Speaking'. The course page includes an 'Overview' section with a table of contents listing items like Introduction, National Standards, Meet the Teachers, Authors and Advisors, Teaching Examples, and Perspectives. A 'New!' badge is present next to the course title. A photograph of a young child speaking into a red and yellow microphone is shown. Below the photo, a paragraph describes the teaching case, and a bulleted list outlines key practices: developing active listening, using 'think, pair, share' for listening and speaking, and using the 'Daily News' for speaking skills.

Listening and Speaking for English Language Learners

New!

This teaching case illustrates how teachers can develop the listening and speaking skills of their ELLs. It follows a university class where teachers are learning about the latest theories and research into what constitutes effective practice. The teaching case also highlights the practice of two effective elementary teachers doing such things as:

- Developing active listening
- Using "think, pair, share" to practice listening and speaking
- Using the "Daily News" to develop speaking skills

What are the benefits and challenges of using classroom-level data and school-level data in teachers evaluations?

# So why use Student Learning Objectives (SLOs)?

SLOs are one way to assess teacher impact on student performance that **involves the teacher in the process** of goal setting, monitoring, and assessing of student progress within the expertise of their own content area.

Professional  
development

Classroom  
teaching

# What is a Student Learning Objective (SLO)?

## What They Are

Classroom level  
measures of student  
growth and/or  
achievement

Over the entire course

Standards based  
content

Specific & Measurable

## What They Are Not

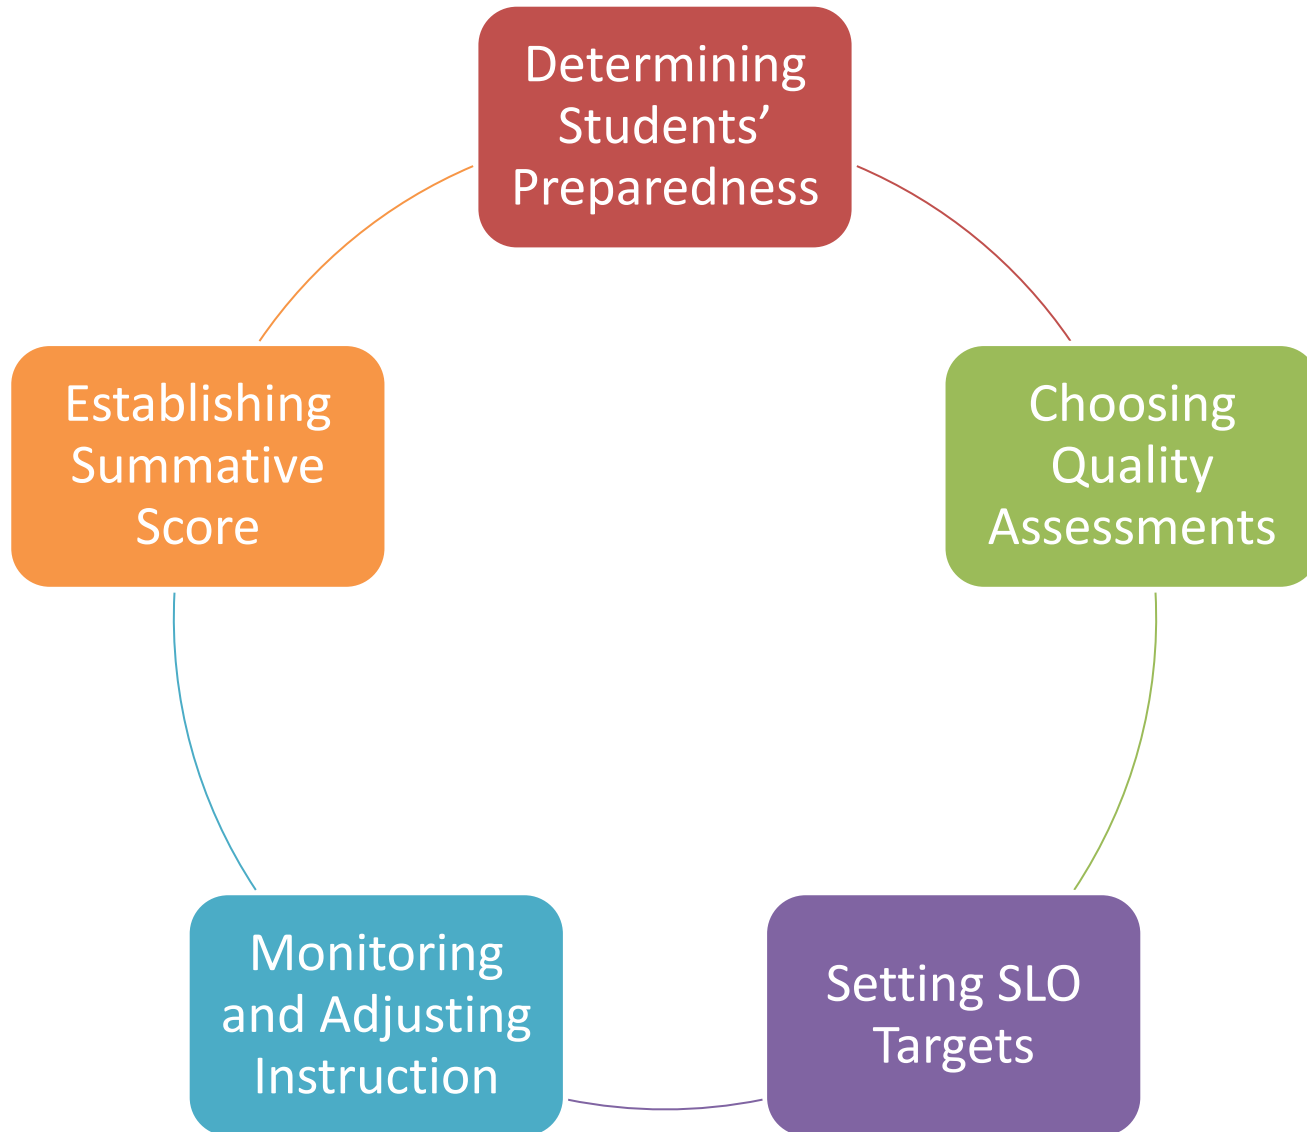

Individual lesson  
objectives

Units of study

Teaching to the test

# Student Learning Objective Process- ADE Model

# Classroom and Targeted SLOs

## CLASSROOM SLO

**Captures ALL Students  
in the class**

## TARGETED SLO

**Captures a subgroup of  
lowest performing students**

# Secondary World History Classroom SLO

All students will demonstrate mastery of geographical, cultural, political, economic, architectural, and historical concepts from the 1800's to Modern Day with at least 75% accuracy on the World History Exam by the end of the year.

# Student Learning Objectives

## Targeted SLO

A measure of student growth between two points in time for a particular set of students in the ***Lowest Level of Preparedness*** in order to master the standards in the content area and to close the achievement gap.

# Music Targeted SLO

5 out of the 5 students who scored a **1** in the beginning range on the LEA-developed music performance assessment rubric measuring intonation, reading music, and fingering skills will move from a 1 to a 2 on the end of year performance assessment.

# Principal Evaluation

## Student Academic Progress

## Overview

On April 25, 2011, the State Board of Education (SBE) unanimously passed the proposed Arizona Framework for Measuring Educator Effectiveness. This action resulted from the passage of SB 1040 that directed the SBE to adopt and maintain a model framework for teacher and principal evaluation that includes quantitative data on student academic progress. ADE will continue to update this page in order to provide the most current information and resources to assist all Local Education Agencies (LEA) with the successful implementation of the framework in the 2012-2013 school year.
